

## Chemical Composition of Gem Base LC

### Material Specification

#### Typical composition

<b>Component</b>	<b>%w/w</b>
<b>Powder</b>	
Vitrified mixture of calcium/sodium fluorides Aluminium oxides/phosphates and silicates	99.9
Iron oxide pigments	<0.1
<b>Liquid</b>	
Polyacrylic acid	35.0
Water	65.0

Product code ; 2140

Product code ; 2110
